PURPLE TRAIL 18km

The BEACH TRAIL is the shortest connection between Kormacit village and the beautiful sandy "Western Golden Beach". It starts flat, passing by the farm "Rancho tel Vata". The following section can be very muddy in winter, afterwards you come back to nice dirt tracks with wonderful views. The last section to the beach has some very sandy parts. **(P)**
MEDIUM 180m ASCENT

YELLOW TRAIL 23km

The YELLOW TRAIL is the connection to the western Cape Kormacit (the last part to the cape is an extension and not calculated in the tracks distance). Again here you have some muddy passages in winter. From the village of Sadrazamköy you turn back on the village road. It's asphalt but not a lot of traffic. **(Y)**
MEDIUM/DIFFICULT 200m ASCENT

BLUE TRAIL 28km **(B)**

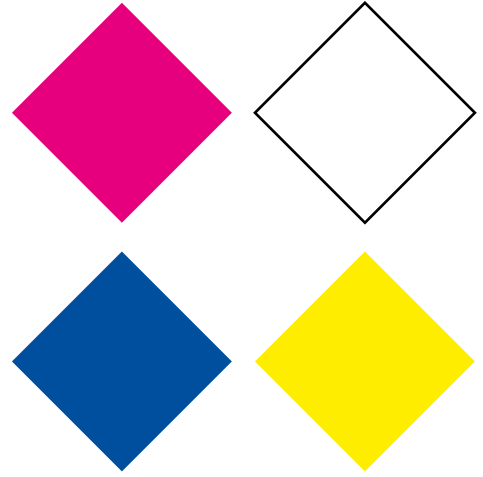

The BLUE TRAIL is the connection to the village of AKDENIZ. First part is flat through the field with a short steep downhill passage at the valley. The dirt track in the forest is wide as a highway and experienced bikers will speed up. Halfway there is the possible extension to the Caretta Restaurant at the beach before turning back following the edge of the valley. - MEDIUM 290m ASCENT

WHITE TRAIL 44km **(W)**

The WHITE TRAIL is demanding because of its distance. The advantage of this trail is that you follow the coastline for more than 15km with wonderful views and fresh air. It follows the BLUE TRAIL at the beginning, then comes the connecting part to the YELLOW TRAIL and follows the village road from Sadrazamköy village. - DIFFICULT 400m ASCENT

Poles, flags and paintmarks

Refer to the signs at your left!
